Your mobile devices will now work everywhere

Unleashed.

Only one communications company connects the entire globe

Iridium commands the world’s furthest reaching network, making it the only truly global communications company with solutions that span from pole-to-pole. Iridium voice and data products provide superior communications solutions that allow global companies, government agencies and individuals to stay connected everywhere. With a unique, global ecosystem of partners, Iridium continues to create new, high-value capabilities that are leading the world into a new era of communication.

www.iridium.com
Iridium GO!™ creates the first ever reliable global connection for voice and data communications on your smartphone or up to 5 mobile devices. No worries. No roaming charges. Just connected and in touch wherever you are, whenever you need, with the devices you rely on everyday.

**Take personal communications further**

Iridium GO!™ is unlike anything the world has seen before. Powered by the world’s furthest-reaching network, this compact, rugged and portable unit dramatically extends the capabilities of any smartphone, laptop or tablet by creating a satellite-backed Wi-Fi hotspot – anywhere on the planet.

**Transform your smartphone**

Iridium GO! instantly transforms your trusted device into a global communications powerhouse. For corporate climbers and weekend warriors, individuals, enterprises or governments, for anyone who is on the move, out of range or off the grid – by land or at sea – Iridium GO! enables reliable voice and data capabilities for your smartphone or up to 5 mobile devices.

**Critical connectivity for all**

No matter who you are, the ability to conduct business, connect with friends and family, access information, respond rapidly to any situation or simply stay in touch is critical, particularly beyond the reach of terrestrial networks.

**A personal communications revolution**

Iridium GO!™ is unlike anything the world has seen before. Powered by the world’s furthest-reaching network, this compact, rugged and portable unit dramatically extends the capabilities of any smartphone, laptop or tablet by creating a satellite-backed Wi-Fi hotspot – anywhere on the planet.

**Transform your smartphone**

Iridium GO! instantly transforms your trusted device into a global communications powerhouse. For corporate climbers and weekend warriors, individuals, enterprises or governments, for anyone who is on the move, out of range or off the grid – by land or at sea – Iridium GO! enables reliable voice and data capabilities for your smartphone or up to 5 mobile devices.

**Critical connectivity for all**

No matter who you are, the ability to conduct business, connect with friends and family, access information, respond rapidly to any situation or simply stay in touch is critical, particularly beyond the reach of terrestrial networks.

**Iridium GO! simplifies global communications for:**

- Pilots, boaters and trucks
- Adventurers and explorers
- Remote residents and vacationers
- Emergency and first responders
- Global and business travelers
- Global enterprise
- Executive and diplomats
- Foreign missions
- Government and NGOs
- Military operations
- M2M applications
- Anyone out of cellular range

**Innovative**

Combining the best that both satellite and cellular phones offer, Iridium GO! is the first in a whole new category of personal satellite connectivity devices. It is also a powerful development platform optimized for Iridium partners to build applications, extending communication capabilities even further in remote locations.

**Affordable**

Iridium GO! is an affordable solution for truly global connectivity. It leverages and extends your existing trusted devices, is compatible with Apple® and Android™ operating systems, and eliminates roaming charges. It allows connections to be shared among multiple users and is supported by affordable plans that keep voice and data costs reasonable.

**A personal communications revolution**

Iridium GO! enables satellite connectivity for your mobile devices where terrestrial networks cannot. Simply flip up the integrated antenna and the battery-powered unit connects quickly and automatically to the Iridium LEO satellite constellation to create an anywhere Wi-Fi hotspot within approximately a 105 meter (350 foot) radius. You can easily connect and operate multiple devices within this area using the Iridium GO! application.

**Versatile**

Iridium GO! supports a full range of global communications, including:

- Voice calls
- Email access
- Social networking
- Applications
- GPS tracking
- Photo sharing
- SMS two-way
- SOS alert

**Mobile**

You can take Iridium GO! anywhere. It’s small enough to fit in your pocket and, like other Iridium devices, tough enough to withstand rain, sand, dust and rough use. It can be carried, easily stowed in your backpack, or mounted in vehicles, aircraft and boats for mobile applications.

**SOS**

If you are in an emergency, simply press the Emergency button to activate the built-in GPS tracking functionality, which sends your location to Iridium’s 24/7 dispatchers. They will automatically send your location coordinates with your phone number to authorities in your location. You can also pre-program up to four contact numbers with 90 pre-defined emergency messages.

**Easy to Use**

- Stable, lay-flat design
- Flip up antenna
- Built-in menu/status display
- Wi-Fi device ready
- App API for developers
- Robust accessory platform

**Connect through Apps**

Download, install, configure and connect with Iridium-optimized applications, available for Apple® and Android™ devices.

**Iridium GO!**

- Iridium GO! status bar
- Iridium GO! battery life
- Send quick GPS or check-in message
- Configure settings
- Send Twitter post
- Initiate voice call
- Set-up Wi-Fi data call
- Activate Emergency SOS

**Iridium Mail & Web**

- Send/receive emails
- Retrieve emails from external accounts
- View web pages
- Post pictures on Facebook wall
- Post Twitter updates
- Access weather forecast
- Compress and send photos

**Tech Specs**

- Dimensions: 4.5” x 3.25” x 1.25”
- Durability Specifications:
  - Military-grade ruggedness (MIL-STD 810F)
  - Ingress Protection (IP65)
- Easy to Use:
  - Stable, lay-flat design

Take personal communications further
Iridium GO!™ is unlike anything the world has seen before. Powered by the world’s furthest reaching network, this compact, rugged and portable unit dramatically extends the capabilities of any smartphone, laptop or tablet by creating a satellite backed Wi-Fi hotspot – anywhere on the planet.

Transform your smartphone
Iridium GO! instantly transforms your trusted device into a global communications powerhouse. For corporate climbers and weekend warriors, individuals, enterprises or governments, for anyone who is on the move, out of range or off the grid – by land or at sea – Iridium GO! enables reliable voice and data capabilities for your smartphone or up to 5 mobile devices.

A personal communications revolution
Simple
Iridium GO! enables satellite connectivity for your mobile devices where terrestrial networks cannot. Simply flip up the integrated antenna and the battery-powered unit connects quickly and automatically to the Iridium LEO satellite constellation to create an anywhere Wi-Fi hotspot within approximately a 105 meter (345 foot) radius. You can easily connect and operate multiple devices within this area using the Iridium GO! application.

Versatile
Iridium GO! supports a full range of global communications, including:
- Voice calls
- Email access
- Applications
- Social networking
- Photo sharing
- SMS two-way
- GPS tracking
- SOS alert

Mobile
You can take Iridium GO! anywhere. It’s small enough to fit in your pocket and, like other Iridium devices, tough enough to withstand rain, sand, dust and rough use. It can be carried, easily stowed in your backpack, or mounted in vehicles, aircraft and boats for mobile applications.

Innovative
Combining the best that both satellite and cellular phones offer, Iridium GO! is the first in a whole new category of personal satellite connectivity devices. It is also a powerful development platform optimized for Iridium partners to build applications, extending communication capabilities even further in remote locations.

Affordable
Iridium GO! is an affordable solution for truly global connectivity. It leverages and extends your existing trusted devices, is compatible with Apple® and Android® operating systems, and eliminates roaming charges. It allows connections to be shared among multiple users and is supported by affordable plans that keep voice and data costs reasonable.

Critical connectivity for all
